MANUFACTURING FACILITY

Equipped with state-of-the-art infrastructure, our manufacturing facility boasts advanced amenities for production, testing, and quality control. This enables us to deliver a consistent supply of superior products. In our steel melting division, we employ cutting-edge technology, including:

- electric induction furnaces with 10 mt capacity
- vacuum degassing and ladle refining furnaces
- bottom poured ingot route, fully killed steel

Our commitment to excellence ensures that every product meets the highest standards of quality and reliability.
